DETAILED ACTION

Election/Restrictions

1. A telephone conversation with Atty. Z. Peter Sawicki on Friday, April 15th 2005 was conducted regarding the restricted claim groupings below. An election decision was not made over the phone and an Action detailing the restriction was requested.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. **Claims 1 - 7** are drawn to accessing and augmenting data via a shared memory or in a database classified in class 709, subclass 213 or class 707, subclasses 2 or 8.
 - II. **Claims 8 - 13** are drawn to accessing an electronic business card classified in class 705 subclass 41.
 - III. **Claims 14 - 20** are drawn to accessing financial investment data and portfolio management classified in class 705, subclasses 35 and 36.
3. Applicant is advised that a reply to this requirement must include an identification of the group that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2141

Should applicant traverse on the ground that the groups are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the groups to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
